## GAMES MARKET

The gamer market is one of the biggest in the world and conquers more space in people's lives year after year.

According to data from Newzoo, the sector grows on average 10% a year, it had a revenue of:

**\$ 148 billion**

in 2019

and over **2.4 billion**  
of global players.

## MOBILE GAMES

The mobile games sector was responsible for:

**58% of the market's**  
annual turnover.

Free PC games accounted for **17%**  
**of total industry revenue.**

And premium console games  
represented a **14% share of annual**  
**revenue.**

## INNOVATIVE GAMES

Simplicity through the combination of retro and modern, are innovative games considering classic mechanics, familiar and easy to understand, but difficult to master.

**This is the hook for having thousands of people involved in the games they create and the attractiveness they win over customers.**

## THE MOVEMENT

Important movement that greatly strengthened the games market.

**"Gamification"**, a phenomenon that promotes the transformation of processes using design techniques, mechanics and game-oriented thinking, a strategy to enrich and stimulate contexts in business and educational environments.

# GAMIFICATION

Did you know that gamification has been present in practically everything we do in our lives? Everything is being “gamified”.

“Gamification is the use of game mechanics and dynamics to engage people, solve problems and improve learning, motivating actions and behaviors in environments outside the context of games”.

The main objective is to increase engagement and arouse users' curiosity and, in addition to the challenges proposed in games, rewards in gamification are also crucial for success. Gamification is basically using game ideas and mechanisms to encourage someone to do something.

Gamification is a realization of how human beings are attracted to games. Whether electronic or analog, the truth is that humanity has always had great commitment to enjoy and participate in games.

# COIN MISTER

We don't want to revolutionize technology, we want a revolution in people's lives. Coin Mister is an open source peer-to-peer cryptocurrency that follows the decentralized autonomous organization model.

Cryptocurrency is focused on offering freedom to consumers who want to enjoy the world of Games. It allows you to move money quickly and affordably anywhere, anytime and to anyone within the E-games and digital world.

## BLOCKCHAIN

It is a system that allows you to track the sending and receiving of some types of information over the internet. These are pieces of code generated online that carry connected information – like blocks of data that form a chain.

## BEP 20

It is a developer-friendly token pattern that allows anyone to deploy fungible digital currencies or tokens in Binance Smart Chain. Furthermore, key digital assets in other chains can be transferred to Binance Smart Chain in the form of indexed BEP20 tokens.

## BINANCE

It is a global cryptocurrency exchange that provides a platform for trading over 100 cryptographic currencies. Since early 2018, Binance has been considered the world's largest cryptocurrency exchange in terms of trading volume.

## STAKE AUTOMATIC

You automatically receive more tokens in your wallet for being a holder.

For every transaction on the network, whether buying, selling, transferring between wallets, a fee is charged in tokens and divided to holders.

## MISTERSWAP

We will have our own platform, where users can swap with Coinmister for other assets and vice versa.

## STAKING

We will use the staking mode that can be done in the future through a platform, thus locking the coins to receive new rewards.

We will have a website where you can rent your coins, and have passive income, earning daily rewards.

## ROADMAP

### Q1

- Contract implementation
- Site
- Social networks
- LOVE Youtube
- Fair launch pancake swap

### Q2

- Blockfolio
- Poocoin ads
- CoinMarketCap
- CoinGecko
- Swap platform and digital wallet

### Q3

- Staking platform
- NFT platform
- App social network of players

### Q4

- Play to earn credits game and tokens
- CrossChain
- Exchanges
